1989	1,734	995	Five or fewer	12.58%	12.08%	14.53%	N.A.
1988	1,107	465	Five or fewer	15.67%	15.14%	7.89%	N.A.
1987	951	378	Five or fewer	5.87%	5.40%	2.76%	N.A.

N.A. - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

* Total Firm Assets include Scout and Reams for years 1999 through current and Reams-only prior to 1999.

** Formerly Lehman Brothers Aggregate Bond Index

Core Plus Fixed Income Composite contains fully discretionary fixed income accounts and for comparison purposes is measured against the Barclays Capital U.S. Aggregate Bond Index as a general market indicator. This composite invests in the types of securities represented in its benchmark, permits below investment grade securities, generally permits non-dollar denominated securities, and its duration ranges from unrestricted to +/- 20% around the benchmark. Prior to June 1, 2001, the composite was named the Total Return Fixed Income Composite. The minimum account size for this composite is \$20 million. Prior to January 1, 2002, the minimum account size was \$4 million.

Reams Asset Management has prepared and presented this report in compliance with the Global Investment Performance Standards (GIPS®).

ANNUAL DISCLOSURE PRESENTATION
PAGE TWO OF TWO**

Scout Investments, Inc., is a registered investment advisor that offers investment management services for both managed accounts and mutual funds. Scout Investments is a wholly owned subsidiary of UMB Financial Corporation. Reams Asset Management is a division of Scout Investments. Scout Investments was previously defined as UMB Institutional Asset Management, a subsidiary of UMB Bank, which managed both institutional and high net worth, trust, and estate assets. On July 1, 2009 the firm transitioned from UMB Bank and became a subsidiary of UMB Financial Corporation in order to focus on institutional investment management. Note that as-of the redefinition, certain accounts remained with UMB Bank. The criteria used to determine which accounts stayed with UMB Bank is available upon request. On November 30, 2010, the firm acquired the advisory business of Reams Asset Management, formerly known as Reams Asset Management Company, LLC. The portfolio managers and the investment objectives remain the same. On December 28, 2010 the firm changed its name from Scout Investment Advisors to Scout Investments.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using actual management fees. Prior to January 1, 1994, net performance was calculated using the highest management fee. The annual composite dispersion presented is an equal-weighted standard deviation calculated for the accounts in the composite the entire year. Additional information regarding the policies for calculating and reporting returns is available upon request.

The investment management fee schedule for the composite is 0.30% on the first \$50 million and 0.20% on the next \$50 million. Fees are negotiable for accounts in excess of \$100 million. In addition to the management fee, some accounts may also pay an incentive fee. Actual investment advisory fees incurred by clients may vary.

Reams defines a derivative as an instrument or contract whose value is derived from the performance of an underlying financial asset, index or obligation. Derivatives are employed infrequently, yet opportunistically, when a strategy is unavailable or not cost effective through the cash market. Derivatives used are strictly constrained by client investment policy.

In the Core Plus Fixed Income strategy, Credit Default Swaps (CDS) are used as substitutes for cash bonds and do not introduce leverage into the portfolios. Index products (CDX) are used for efficient, diversified exposure to the high yield and investment grade markets. CDS/CDX may comprise a maximum 20% notional value of the composite portfolio. Currency forwards may be used (up to 5% notional value) to hedge currency exposure when Reams chooses to establish positions in non-U.S Dollar bonds.

The Core Plus Fixed Income Composite was created June 1, 1981. Reams Asset Management's compliance has been verified for the period January 1, 1987 through December 31, 2009 by Ashland Partners & Company LLP and for the period January 1, 2010 through December 31, 2010 by The Spaulding Group. In addition, a performance examination was conducted on the Core Plus Fixed Income Composite beginning January 1, 2002. Copies of the verification reports are available upon request.
